

Questionnaire on motivations and tourist preferences

The purpose of this questionnaire is to understand how aspects of personality, interests and motivations articulate with preferences and, eventually, with the choice of tourist attractions.

Being an international project, we appeal you to respond as honestly and truthfully as possible across the various sections as if you were actually setting up your profile in a tourism application (e.g.: Booking.com or TripAdvisor) for a proposal of a travel itinerary according to your interests.

The gathered data are anonymous, confidential and will ONLY be used in aggregate form, NEVER being disclosed individually.

This work, conducted at the School of Engineering of the Polytechnic of Porto (ISEP, IPP) in conjunction with the Porto and Northern Portugal Tourism and the Institute of Policy and Management of the Chinese Academy of Sciences, is part of the GrouPlanner Project - "Supporting Groups in Travel Planning Considering Social and Cultural Aspects" (POCI-01-0145-FEDER-29178) and is funded by FCT (Foundation for Science and Technology) under the projects UID/CEC/00319/2019 and UID/EEA/00760/2019.

More information about this project can be found at <http://www.gecad.isep.ipp.pt/grouplanner>.

Most answers should be given on a scale from 1 to 7, being the scale values described in each part. The estimated response time is 15-25 minutes.

We thank you in advance for taking the time to complete this questionnaire and for your valuable contribution to this research project!
